

Title. The title should clearly and concisely describe the purpose of the paper and should not include abbreviations. Only the first letter and proper names should be capitalized

Author Names. The following should be provided for each author: first name, middle initial and surname. Initials alone with surnames should not be used. Do not include profession titles or academic degrees. The name of the corresponding author should be marked with an asterisk (*). The name of the presenting author should be underlined. If authors are from different institutions their surnames should be labeled with a lower case superscript letter referring to the respective addresses

Authors' addresses. The mailing address(es) of author(s) should include the institutional affiliation, street or PO box number, city, and postal code . Do not include phone or fax number E-mail: The address line should be followed by the e-mail address of the corresponding author

Abstract

The abstract should briefly state the purpose of the research, principal results and the major conclusions.

References

The format required for references and footnotes is given below. Unnecessarily long reference lists should be avoided by selecting references carefully and citing reviews wherever possible.

All references must be cited in the text by the reference number using superscripts. Notes may be used to cite manuscripts in preparation, unpublished observations and personal communications. References cited should follow the style below:

- 1.Coskun, A.; Banaszak, M.; Astumian, R. D.; Stoddart, J. F.; Grzybowski, B. A. *Chem. Soc. Rev.* **2012**, *41*, 19.
- 2.Levinthal, C. In *Mossbauer Spectroscopy in Biological Systems: Proceedings of a Meeting Held at Allerton House, March 17 and 18, 1969, Monticello, IL*; University of Illinois Press:Urbana, IL, **1969**; 22.
